GRAND

MASS MEETERG! AND BANNER PESENTATION AT FALMOUTH-MORE THAN 4000 AMERICANS ASSEMBLED!!!

Taursday last, the 18th inst., was the day fixed upon for the presentation of a splendid flag, prepared by the ladies of Falmonth, as a testimonial of their appreciation of the gallant services rendered by the American Party in Pendleton, (the banner county) at the last August election.

The day was as beautiful as heart could wish-a bright sun, a cloudless sky, and all surrounding nature seeming to smile in commendation of the gladsome scene to be presented. At an early hour immense crowds commenced pouring in from the country, and with the hundreds added by the long trains of cars arriving from both directions, added greatly to the throng, and by 10 o'clock more than 4000 American ladies and gentlemen had assembled in enthusiastic waiting for the exercises of the day. At that hour, a procession, consisting of about three-fourths of the persons present, was formed opposite the court house, under the direction of Julius G. Coleman, Esq., the Marshall of the day, and headed by the splendid Rand from the U. S. Well, its a fine thing to have taste, but a bad thing too much taste, and execrable to have no taste. For the editor of the Louisville Courier, who has been the advocate of half-a-dozen parties, in as many years, to censure anybony, for doing anything, is not only had taste, but simply ridiculons; but when he states that Gov. Morehead took the stump, and delivered a political harangue, on that day, his truth (to say the least of it) is equally as bad as his taste. "We trust," says he of the Courier, "this may be the last time we shall hear of Gov. M. quitting his duties to attend political mass meetings." We would not be surprised if Gov. M. declined all invitations to barbecues in foture, since he has had his line of duty so plainly marked out by the Courier.

Theauthor of this work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States. From A Woodward, M. D., of Penn University Philadelphia.—'It gives me pleasure to add my testimony to the professional ability of the Anthor of the "Meddish Manual.'" Numerous cases of lisease of the Genitial Organs, some of them of long stancing, have come under my untice, in which his skith has cen manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weaknesses, or disarrangement of the muctions produced by self-abuse or Excess of venery, I do not know his superior in the profession. I have been acquainted with the Anthon some thirty years, and deem it no more than justice to 1 im 's well as kindness to tre unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves. Ant. Woodward M. D.

'This is, without exception, the most comprehensive and is telligible work published in the class of diseases of which it treats.
